

Which Birds Eat What?

Different feed will bring a variety of birds to your garden.

Seed mixtures are great for
Dunnocks & Finches.

Fatballs and blocks are good for
Winter feeding and will encourage
Starlings, Blackbirds, Thrushes,
Robins and Blue Tits to your garden.

Nyger seed is high in oil. Siskins,
Goldfinches and Greenfinches will
love finding this in your garden.

Peanuts are rich in fat and
help Blue Tits, Greenfinches,
House Sparrows & Nuthatches
survive cold times.
